

Jordan University of Science and Technology
Dept. of Biotechnology and Genetic Engineering
Scientific Writing and Presentation BT 391
Second Semester 2023/2024

- **Instructor:** Prof. Nisreen AL-Quraan, PhD - Office: PH1 L-1., Email: naquraan@just.edu.jo
- **Course Description:** A course designed to give undergraduate students the skills necessary to write a reports and manuscripts, and to prepare other professional materials for presentation or publication. Topics covered in this course include: searching the scientific literature; scientific writing style; writing reports, manuscript, proposals, and projects; preparing scientific presentations; presentation of data; using visual aids; and using word processing, spreadsheet, and presentation software.
- **Course Text Book:** Writing Papers in the Biological Sciences, McMillan VE., 5th edn (2012) or 6th edn (2017) or 7th edn (2021), Boston: Bedford/St. Martin's.

- **Class Materials:**

All class chapters PDF and PPT, class announcements, Online meetings and discussion, and Exams ADDs will be posted on the Elearning system. Students are responsible for **ALL** class materials presented or assigned on Elearning system.

- **Attendance Policy:**

Students are expected to attend classes. Consequently, students are responsible for **ALL** material presented or assigned during the scheduled class period and are expected to obtain such information on their own should a class period be missed. Whenever possible, absences will be discussed with the instructor in advance. Class attendance will be taken in lecture. Students will be allowed three absences between every mid-term exam, and a total of 3 absences before the final. Absences in excess of that stated above will result in the student failing in the course.

- **Policy on academic dishonesty and Make-up examinations:**

JUST regulations and rules will be strictly implemented. Refer to University's student information book for more details about exams, exam make up and absence rules; If you are absent from one or more of your examinations for medical or other reasons, you must provide documentary evidence to **justify** your absence for the consideration of a make up exam within one week or else no make up exam will be permitted.

Evaluation

Quizzes	20%
Midterm Exam	40%
<u>Final Exam</u>	<u>40%</u>
Total	100%

<u>Subjects</u>	<u>Chapter # (Text book)</u>
Locating and Using Biological Literature.....	Chapter 1
Handling Data and Using Statistics.....	Chapter 2
Using Tables and Figures.....	Chapter 3
Writing lab Reports and Research Papers.....	Chapter 4
Writing a Review Paper.....	Chapter 5
Documenting the Paper.....	Chapter 6
Drafting and Revising.....	Chapter 7
Preparing the Final Draft.....	Chapter 8
Using Writing to Prepare for Examinations.....	Chapter 9
Research talk Presentation.....	Chapter 10
Preparing poster presentation.....	Chapter 11
CV writing.....	Chapter 12

- **Biotechnology & Genetic Engineering Program Learning Outcomes (PLOs)**

Upon completion of the BSc. in Biotechnology and Genetic Engineering degree students will be able to:

PLO1

Demonstrate knowledge and comprehension of core concepts, which includes but is not limited to knowledge of cell biology, biochemistry, genetics, molecular biology, microbiology and immunology.

PLO2

Exhibit basic laboratory skills necessary for the field of biotechnology and genetic engineering.

PLO3

Utilize and apply knowledge of biotechnology in various applications like industry, medicine, agriculture and other related fields

PLO4

Demonstrate effective reading, critical thinking, and problem-solving skills as well as exhibiting effective oral and written communication skills

PLO5

Recognize and understand ethical and social implications of the use of biotechnology and genetic engineering.

PLO6

Demonstrate knowledge of contemporary issues in biotechnology and genetic engineering.

- **Course Learning Outcomes (CLO):**

Upon successful completion of this course, students will be able to:

No.	Outcome (CLO)	Weight %	Linked of the CLO's to the PLO's	Linked with NQF Descriptors
1	Learn and understand the Mechanisms of Locating and Using Biological Literature, Handling Data and Using Tables, Figures and Statistics.	30%	PLO1 PLO4	1L7K1 1L7S1
2	Explain and use strategies of scientific writing for preparing to write a report, manuscript and review articles and the format of citing and listing references.	30%	PLO1 PLO4	1L7K1 1L7S1
3	Discuss the process of Drafting and Revising, Preparing the Final Draft, Using Writing to Prepare for Examinations and preparation strategies for successful oral Research talk Presentation, C.V writing and poster presentation.	40%	PLO1 PLO4	1L7K1 1L7S1

- **Course Policies:**

1. Your class attendance is mandatory. Absences in excess of 20% of the total lecture hours will result in your being dropped from the course with a failing grade.
2. Make-up exam appeals should be filed within Two days of the missed exam.
3. Cell phones are prohibited during examinations and must be turned off during lecture. No incoming or outgoing calls or text messages are allowed.
4. Unethical conduct, including cheating during examinations, will result in punishment by the university administration that will be strictly implemented.
